

Combo Load Freight Calculator						
Formula for Out of Town Combo Loads						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
Repeat as needed depending on how many stops there are						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
((mileage 1 way _____ X % of subtotal \$ amount _____ = _____ X multiplier _____ = \$ _____) + \$60.00) = \$ _____						
					Total	\$ -
Example:						
5 stops to Eastern Iowa and Chicagoland on a single load totalling \$4,250.00						
Customer	Jimmie's Lawn Care	John's Lawn Care	Bob's Greenhouse	Junior's Landscapes	Phil's Trees	
Subtotal amount of invoice	\$ 1,257.72	\$ 837.12	\$ 732.16	\$ 299.44	\$ 1,123.56	
% of total trailer load	30%	20%	17%	7%	26%	
Mileage 1 way from DMF Gardens	106 miles	108 miles	138 miles	162 miles	309 miles	
How the math works out for freight charges for each stop	106 X .3 = 31.37 X 4.5 = \$141.16 + \$60.00 = \$201.16	108 X .2 = 21.27 X 4.5 = \$95.73 + \$60.00 = \$155.73	138 X .17 = 23.77 X 6.5 = \$154.53 + \$60.00 = \$214.53	162 X .07 = 11.41 X 12 = \$136.97 + \$60.00 = \$196.97	309 X .26 = 81.69 X 4.5 = \$367.60 + \$60.00 = \$427.60	
Combo Load Pricing only applies if it is less than the normal delivery fee per customer. Local combo deliveries will still be \$80.00 each						
If using a Semi Truck/Trailer use the bottom yellow line						
Multiplier Schedule						
90% of the load or greater	1.5					
65% to 89% of the load	2.25					
40% to 64% of the load	3.5					
18% to 39% of the load	4.5					
13% to 17% of the load	6.5					
10% to 12% of the load	8					
6% to 9% of the load	12					
4% to 5% of the load	15					
3% of the load or less	20					
Plug & Price Worksheet
